

MAP Client Services

## MANAGEMENT

Resources that offer a wealth of information to improve workplace safety.

### Safety Essentials Online

Safety National, in partnership with BLR, presents Safety Essentials Online to support your accident prevention and safety training needs. Save time and money with resources that include:

- Customizable and downloadable training tools
- Explanations of applicable laws and regulations
- Daily regulatory updates
- Best practices case studies and whitepapers
- Daily safety news articles
- Ask the Experts Q&A database
- An online database of over 4 million SDSs
- Customizable newsletter templates
- A safety Plan Builder library
- Workplace safety resource centers

### Safety National Crisis Protection

This benefit provides a 24-hour crisis hotline for Safety National's Excess and Large Deductible Workers' Compensation customers. Ask how you could qualify for this benefit in the event of a Domestic Crisis, such as a vehicular accident or a workplace violence event, or an International Extraction Crisis Event.

## ANALYSIS

Methods to measure and analyze the effectiveness of your work comp cost containment program.

### Workers' Comp Kit®

This online self evaluation will help identify success of program components, provide cost comparisons and program improvement solutions through three major steps:

- **Program Evaluation** – to help determine how well your workers' compensation program aligns with industry best practices in terms of managing and controlling claims costs.
- **Cost Reduction** – with access to over 60 tools such as letters, presentations, forms and worksheets to assist in reducing the cost of claims after they've occurred.
- **Benchmarking** – the ability to compare your losses to your peers on a national level or on a state level.

MAP Client Services

## PREVENTION

Tools to help prevent injuries before they occur, save lives and reduce organizational costs.

### Safety Training Source

This self-paced, online employee learning management system provides courses that can be assigned to employees or entire departments, enabling you to track their progress and overall scores. Over 150 courses are included with select items available in Spanish.

### S:ERVE

Safety: Emergency Responder Vehicle Education (S:ERVE) is an online driver simulation and curriculum created to educate law enforcement, firefighters and EMS personnel to drive at their safest in emergency response scenarios in an effort to reduce collision rates.

### Safety National's Distracted Driving Course

This course is designed to train employees that drive as part of their job. Through online simulation, employees will learn safe driving techniques related to distracted driving, including how to eliminate controllable distractions and how to make necessary adjustments for uncontrollable distractions.

### Remedy Interactive

This online tool promotes workplace wellness by helping employees work more comfortably at their computers and workstations with self-help ergonomic tools. It is designed to help decrease injury-related costs, drive down absenteeism and better address OSHA compliance.

### Also Available Through MAP Client Services:

- Risk control services that include access to a network of safety experts and consultants.
- Vendor discounts for a variety of safety management and training materials.
