Oklahoma Elect Qualified Employers' Excess Indemnity Policy

Providing a Broader Range of Excess Coverage
for the State of Oklahoma

Proceed with Safety®

When Oklahoma passed SB 1062 into law allowing employers the choice to manage employee injuries under an on-the-job injury benefit plan platform in lieu of the state's workers' compensation system, Safety National immediately responded with Oklahoma Elect. This qualified employers' excess indemnity policy provides excess coverage over an occupational injury benefit plan as well as excess employers' liability coverage to Oklahoma qualified employers who choose this alternative to traditional excess workers' compensation coverage.

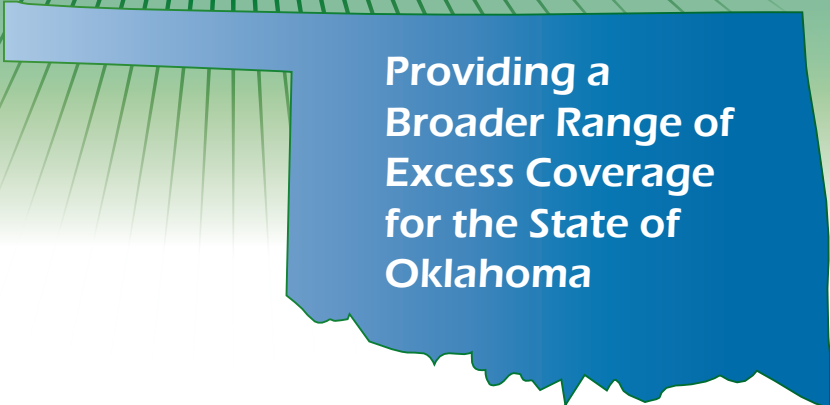

Policy Features:

- Designed for large employers with active risk management programs in place.
- Written on admitted paper approved by the State of Oklahoma.
- Coverage provided in excess of a self-insured retention (SIR) generally starting at \$350,000 per occurrence with statutory limits available for the specific excess of loss coverage and up to a \$5 million annual policy limit for aggregate excess of loss.
- Broad excess of loss specific and aggregate policy contract form. By attaching above the approved ERISA plan and having fewer exclusions, our policy improves alignment between insurance carrier and insured employer interests in benefit plan cost containment.
- Includes employers' liability excess of loss coverage with limits starting at \$1,000,000.
- Surety bonds available for those who require a bond to comply with regulatory security requirements.
- Assigned to a dedicated underwriting team who are specialists in excess of loss risk programs.

Policy Enhancements:

- Policy follows approved underlying ERISA plan unless otherwise excluded.
- Other states' workers' compensation coverage available under a separate large deductible or excess policy.
- 90% annual minimum premium provision.

Providing a Broader Range of Excess Coverage for the State of Oklahoma

Claims Administration Services

All claims will be handled on an unbundled basis through an approved Third Party Administrator (TPA) or self-administration. Employers will have a separate contract with the TPA to maximize service flexibility and cash management options. In addition to periodic TPA claim reviews, Safety National has expertise in assisting our clients with guidance and best practices oversight for the program.

Risk Control Services

Risk control services are available upon request through our MAP Client Services platform. We provide a variety of resources to assist your safety and injury prevention program, including on-site consulting, online resources, safety training and safety plan development.

Availability

Oklahoma Elect is available to licensed agents and Safety National does have a partnership with Jerry Murphy of AmWINS Brokerage of Texas to assist in placement of the qualified employers' excess indemnity policy. AmWINS will also coordinate review of current benefit plans to determine compliance with carrier requirements, including dispute resolution protocols and assessment of current plan structure versus limits needed.

ERISA Plan Development

An ERISA plan is a required document to qualify under the Oklahoma Elect. Safety National has a partnership with PartnerSource, that would enable employers to develop an acceptable and qualified ERISA plan.
