

Workers' Comp Kit®

Assess, improve and implement a best-practices workers' compensation program

MAP
CLIENT SERVICES

Safety National has made it easier than ever to build or enhance your workers' compensation program with the Workers' Comp Kit®. This comprehensive resource puts best practices at your fingertips in a streamlined, online format. Users can assess current processes and evaluate team results then apply systematic improvement and implementation tools to augment current programs.

The Workers' Comp Kit® applies a sleek design, complete with a dashboard to track your progress, access your favorite documents and earn badges for mastering different skills. Users also benefit from a full library of customizable reports, presentations, letters, forms and checklists supplemented by cost and savings calculators to help measure program impact.
