

RISK CONTROL SERVICES

Tools to help improve injury prevention
and claim cost containment.

SAFETY NATIONAL RE

A MEMBER OF THE TOKIO MARINE GROUP

Safety National Re understands the challenges that come with maintaining a healthy workforce. We have developed a suite of online risk control resources to supplement our clients' risk management programs.

These tools are provided on a complimentary basis to support program management, analysis and prevention efforts. Our clients can actively utilize them 24/7 to build and maintain a best practice culture that promotes employee safety and minimizes workers' compensation costs.

Our risk control services are comprised of:

Management: A wealth of information to help your organization develop and maintain a successful safety and claim cost containment program.

Analysis: A variety of tools that provide the ability to measure, benchmark and analyze different aspects of your pre- and post-injury programs to clearly identify opportunities for improvement.

Prevention: Interactive educational resources to help improve your loss prevention and mitigation efforts – from teaching employees about potential injury exposures, to helping build proficient post-injury protocol.

Schedule a Demo: Our client service representatives would be happy to demonstrate the capabilities of any or all tools. Contact your reinsurance broker to schedule a demo.

RISK CONTROL RESOURCES

Safety Essentials Online:

This online resource library provides customizable training tools to help improve safety and health best practices, compliance, policies and written risk control programs.

Workers' Comp Kit®: This resource puts best practices at your fingertips in a streamlined, online format. Users can assess current processes then apply systematic improvement and implementation tools to augment current programs. Also includes cost/savings calculators and a library of customizable reports, presentations, forms and checklists.

Safety Training Source: This self-paced, online learning management system provides courses that can be assigned to employees or entire departments, enabling you to track and report on all of their training activities. Over 350 courses are included, with select courses available in multiple languages.

Office Ergonomics Solution: This online program allows users to complete a systematic self-assessment with real-time recommendations and communicate additional support needs. Risk managers, safety professionals or ergonomic champions can navigate the learning management system (LMS) to assign users, track completions and identify users requesting additional support.
