

Defense Base Act (DBA)

Why Safety National®?

Strength

Rated A++ (Superior) by A.M. Best, FSC XV (policyholders' surplus of \$2 billion or greater).
Rated A+ by Standard & Poor's.

Longevity

One of the leading and longest continual workers' compensation carriers in the market. Operating for over 80 years, we can assure you we will be here to pay claims when needed.

Backing

With over \$200 billion in assets, our parent Tokio Marine is among the top 10 insurance groups in the world and its companies are among the highest rated.

Approach

As a leading insurer in the U.S., we have deep expertise in the field. We never take a one-size-fits-all approach, but rather tailor solutions to individual needs.

Solutions

In response to trends and emerging needs, Safety National is continually focused on product development. Ask how our other specialty casualty offerings can be packaged into one complete program.

Product Features

<h2>Coverage</h2>	<p>Safety National offers Defense Base Act and employers liability coverage to contractors working worldwide (outside of the U.S.A.) under contract for any U.S. federal government agency.</p>
<h2>Appetite</h2>	<p>Including (but not limited to) Aviation, Security, Construction, Engineering, Base Maintenance & Operations, Cargo & Logistics, Training & Education, Information Technology & Communications, Administration and NGOs.</p>
<h2>Proficiency</h2>	<p>Our experienced underwriting team approaches each submission with the intent to fully understand unique business profiles, considering factors like loss history, employee concentration, performed work and employer risk management focus.</p>
<h2>Service</h2>	<p>We partner with select TPAs, chosen for their extensive DBA claims handling experience, global adjuster network, customized approach and proven results. Services include 24/7 claims intake, accident investigations, rehabilitation services, medical case management, emergency medical evacuations and directed nurse case management to help injured employees get maximum medical improvement and back to work.</p>
<h2>Value</h2>	<p>We also offer lost cost analysis and consultation, partnering with specialized vendors that provide cutting-edge technology. These resources offer medical testing to provide a pre-employment fit-for-duty benchmark and post-employment record of injuries potentially sustained while deployed overseas.</p>
