

Abuse Prevention Toolkit

To help protect those in your care from abuse and to help preserve trust in your organization

MAP
CLIENT SERVICES

Safety National has collaborated with Praesidium to provide liability policyholders access to targeted solutions to help your organization strengthen its sexual abuse prevention efforts.

Safety National Clients can receive access to:

- Praesidium's Model Policies
- The Praesidium Helpline
- The Praesidium Assessment Tool

Model Policies set the stage for safe environments by defining acceptable and unacceptable employee and volunteer conduct.

The Praesidium Helpline provides your organizational leadership team with a confidential mechanism to address concerns or allegations of sexual abuse. The Helpline identifies support for each situation while advising instruction on the next steps.

The Praesidium Assessment Tool is an online self-assessment tool that provides the necessary expertise and technology to help organizations objectively measure the strength of their sexual abuse prevention strategy. By utilizing this tool, users can see if their best practice standards are correctly infused and adopted.
