

Healthcare

Safety National offers a useful way to revitalize safety training initiatives through Safety Training Source. With over 1,000 interactive courses on relevant topics to assist in training individual employees or entire departments, this competency-based coursework is designed to help healthcare organizations meet their safety training goals.

Top Course Recommendations:

- Active Shooter Response
- Back Injury Prevention
- Behavior-Based Safety
- Bloodborne Pathogens
- HIPAA Compliance Training
- Laboratory Safety – Biological Hazards
- Office Ergo Self-Assessment
- Patient Lifting and Transfer
- Slips/Trips/Falls
- Violence in the Workplace

This cloud-based learning management system offers the ability to assign, track, and report on all of an organization's training activities, providing a great way to facilitate compliance with a variety of regulatory and continuing education requirements.

These titles represent a small selection of the available topics.
