

PRO-ACT® TRAINING & ADVANTAGE E-LEARNING

Behavioral crises in school create trauma, interrupt learning and increase the risk of physical injury to students and teachers. Equip staff with the training to reduce or prevent these incidents through Pro-ACT's crisis de-escalation and restraint reduction offerings.

PRO-ACT TRAINING

- Tools staff use for managing their own behavior during the crisis while delivering clear and practical strategies for reducing dangerous behavior and improving interaction.
- Strategies for observation, support and communication that dramatically reduce the potential for escalation and violence.
- Content specific to understanding and responding to trauma-based behavior.
