

Safe Patient Handling Evaluation Resource

Improve patient safety while preventing employee injury.

MAP
CLIENT SERVICES

Safety National partners with the experts at Atlas Lift Tech to simplify mobility programs. The complimentary toolkit equips users with resources and information to perform detailed analysis and gain additional insight to help improve patient and caregiver safety.

Intuitive Assessments: Developed using prominent industry publications, the intuitive assessments allow facilities to evaluate their performance related to safe patient handling and mobility (SPHM), intra-hospital transport, as well as hospital acquired pressure injuries (HAPI).

Cost of the Status Quo Calculator: Created in partnership with key opinion leaders, the calculator allows users to examine policies and procedures, and uncover the financial impact related to HAPI, falls, and workers' compensation.

Resources Library: Users can access a one-stop shop for peer-reviewed publications, videos, case studies and more, all sorted by topic. The library also includes a "More from Safety National" section, containing printable incident reports and assessments.
