Management • Analysis • Prevention®

Risk control tools to help improve injury prevention and claim cost containment.

Public Entity

Safety National® has developed a suite of online risk control resources to help public entities improve risk management programs. Collectively called MAP Client Services, these tools are provided on a complimentary basis to help improve program management, analysis and prevention efforts. Using these resources, public entity employers can work to build, maintain and/or supplement successful workers' compensation and casualty programs to keep their workforce safe.

CLIENT RESOURCES — WORKERS' COMPENSATION

Resiliency For First Responders

Immerse full-scale resiliency into your workforce with tools and tactics to promote resistance to stress, burnout, and trauma. With dedicated training from Readiness Group, this free three-part course is exclusively designed to improve resiliency strategies for Safety National's policyholders with first responders.

Safety Essentials Online

Enhance your health and safety program with this online resource library. Build tailor-made safety plans, stay informed with the latest OSHA news and access customizable training documents, including PowerPoints, newsletters, and 7-Minute Trainers.

S:ERVE - Safety Emergency Responder Vehicle Education

Reinforce critical driving competencies with immersive online driver training designed specifically for first responders. Equip drivers with skills to approach, assess, and clear intersections under code-3. Easily maintain and track course completions.

Defensive Driving Education

Support fleet safety efforts with simulated driver training for employees who drive on a regular basis. Decrease injuries and costs from collisions with focused training modules covering hazard recognition, space management, distracted driving, safe backing, and more.

Fire Department Standard Operating Guidelines

Define and document best practices for first responders with updated operational guidelines. Supported by a proven action plan, firefighters are equipped with vital information needed before arriving on the scene. The standard operating guidelines book contains 55 customizable reader-friendly sections to match your department's operational approach.

Safety & Health Self-Assessment Tool for Law Enforcement & Jails

Assess your practices to provide a safer work environment for your employees. Promote mental and physical well-being with integrated health programs, screenings, and counseling services, while enhancing efforts to prevent incidents. Customizable and confidential, this resource provides a comprehensive evaluation and user-friendly interface.

Safety Training Source

Use the cloud-based learning management system to revitalize safety training initiatives. Access over 1,000 competency-based training titles, establish administrative hierarchies, train unlimited users, and instantly view and track course completions.

Workers' Comp Kit®

Optimize your workers' compensation program by using this intuitive assessment to determine how your strategy aligns with best practices. Gain organizational commitment by utilizing patented tools and calculators, and bolster existing processes with customizable forms and documents.

Office Ergonomics Solution

Equip employees with the knowledge to optimize workstation ergonomics with this streamlined, interactive self-assessment. Provide users with a formal process for indicating additional ergonomic support needs.

CLIENT RESOURCES — LIABILITY COVERAGE

Law Enforcement Liability Resource

Assess your current practices to address critical issues and determine necessary updates for law enforcement and jail policies and procedures. Take the self-assessment, utilize sample policies and procedures, or engage with law enforcement advisors for expert support.

Abuse Prevention Toolkit

This toolkit works to prevent sexual abuse with access to model policies. Confidentially address concerns and allegations with The Praesidium Helpline. Measure and assess the strength of your abuse prevention strategy with the interactive self-assessment.

HR Essentials Online

Enjoy access to content and live expertise from HR professionals and employment law attorneys. From hiring practices and writing job descriptions to training supervisors and leaders to better understand complicated leave laws, this resource is designed to help organizations facilitate HR governance and compliance.

Schedule a Demo: Our service representatives would be happy to demonstrate the capabilities of any or all tools offered through MAP Client Services. Contact us to schedule your demo at map@safetynational.com or 888-995-5300.
